Our full range of products:

Riding whips

Signalling direction, driving the horse on or simply saying "well done", riders all over the world are impressed by the quality of our finely crafted FLECK whips.

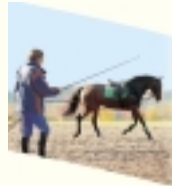

Riding sticks

A FLECK riding stick is a unique item. Our first-class materials, manufacturing perfection and exceptional design will certainly satisfy your customers' demands.

Dressage whips

Firm in the hand, reliable in the execution and individually designed, FLECK dressage whips support professional and amateur riders all around the world in achieving success.

Lunging and vaulting whips

Ultra-light hollow fibreglass and carbon materials are some of the many innovations typical of FLECK that make light work of lunging and vaulting exercises and relieve daily lunge work.

Driving whips / Hungarian-style

FLECK driving whips countenance no compromise whatsoever. All our materials are meticulously selected, tested and expertly designed to guarantee optimum flexibility and balance for perfect handling.

Drop lash whips

FLECK drop lash whips are the pinnacle of whip manufacture. The use of the finest woods and ultra-light carbons combined with our superb craftsmanship results in unique top quality driving sport products that meet the highest standards.

Hunting whips and bull whips

Long-standing traditions such as hand-braiding are also used in the manufacture of hunting whips and bull whips at FLECK, as superb craftsmanship guarantees the best in quality.

FLECK Riding and Driving Whips

IMPULS!

The innovative whip concept with **ErgoBalance-grip**

IMPULS!

IMPULS! Solid

Dressage whip with ErgoBalance grip, **firm whip shaft**, standard tip, in lengths of 42"-56"

IMPULS! Flex

Dressage whip with ErgoBalance grip, **soft pliable whip shaft**, Flex-Top tip, in lengths of 42"-56"

IMPULS! DeLuxe

Dressage whip with ErgoBalance grip, **soft pliable whip shaft**, nubuck leather tip, in lengths of 42"-56"

IMPULS! Touch

Dressage whip with ErgoBalance grip, **semi-rigid whip shaft**, Flex-Top tip, in lengths of 42"-68"

"It lets you give the commands you need to be successful in dressage very effectively and provides impressive reliability, perfect balance and optimum purchase."

Andreas Helgstrand

Danish world class dressage rider, successful at both international and Olympic level

"Riders with disabilities are particularly dependant on aids to provide good communication between horse and rider that are specifically designed for the purpose. This is where the new IMPULS! whip from FLECK is quite outstanding."

Hanne Brenner

German champion and double gold medallist at the Hong Kong Paralympics

Perfect for every rider

The innovative **IMPULS!** whip concept provides an impressive and **unique design** and a wide range of uses. The whip grip is totally new and was developed specifically for dressage and amateur riders in collaboration with sports physiotherapists and a well-known sports equipment designer:

the **ErgoBalance-grip**

For that perfect, energy-saving grip, we've designed a cross-section that fits every hand and sits comfortably.

Handy eyelet for storage and to attach a wrist strap

Ergonomic shaped grip with non-slip coating for a sure grip

Variable grip surfaces for all types of handling and hand size

Optimum balance and flexibility

Handy thumb rest for efficient ground exercises

The **lengthened grip** provides riders with several hold positions. A range of diameters support a loose and relaxed grip. **Different material surfaces** allow the hand to glide, while providing a firm grip. The asymmetrical end of the grip prevents the hand from slipping off. A **rubber knuckle** serves as a handy thumb rest when using the **IMPULS!** whip for ground exercises

With our 4 different types of whip **Solid**, **Flex**, **DeLuxe** and **Touch** all riders are guaranteed an optimal sweep of the whip as well as perfect, effortless handling.
